

WHAT WE DO

Having just this one focus, allows the organization to direct all our efforts into developing the most effective and efficient processes and procedures for animal disaster responses.

OUR PROGRAMS INCLUDE:

- Partnership programs with emergency management, local agencies and other animal organizations.
- Disaster preparedness educational programs.
- Training for communities and individuals in the planning, preparation and implementation of their disaster programs.
- Community outreach.

We are experts at raising the level of knowledge people have about disaster preparedness. What we do affects the lives of companion animals and their caregivers. All of our services are provided at no charge. Volunteers are mobilized when local authorities request PSCS help and when the Provincial Emergency Program's Emergency Social Services is activated. In Quebec PSCS has an established team but will answer requests for help through local, provincial and federal government agencies.

If you are currently seeking help during a disaster or need to report a disaster, please contact us immediately.
